

Durdans Hospital has been a trusted name in Sri Lankan healthcare for over seven decades elevating the standard of healthcare not only in Sri Lanka but beyond borders. Being the first hospital in Sri Lanka to receive Joint Commission International (JCI) standard from the leading accreditation body for global healthcare, and since then reaccredited, we continue to adopt a framework for sustainable development, meeting our brand promise of excellence in care.

RESIDENT CONSULTANT ANAESTHETIST

Applications are invited from Sri Lankan Doctors who possess relevant specialist qualifications (MD/FRCA or equivalent) and are registered with the Sri Lanka Medical Council (SLMC) and Board Certified. Additionally, candidates with a minimum of three years' experience are preferred. Experience in Cardiac Anaesthesia will be advantageous.

Age: Below 50 years

Salary/Remuneration Package and Other Benefits: Negotiable

Conditions of Service: will be in conformity with local labour regulations

If you possess the requisite qualifications and skills, we invite you to send in your CV by registered post, along with a recent passport sized photo, including phone numbers and details of two non-related referees. Post applied for should be marked on the top left corner of the envelope and it should reach us within 7 days of this advertisement.
