SOFTWARE ENGINEER

We are seeking a talented Software Engineer with over 2 years of experience to join our team. The ideal candidate should have a strong understanding of MVC architecture, along with proven expertise in Elasticsearch and experience working with CodeIgniter.

Experience

- Bachelor's degree in Computer Science, Engineering, or related field.
- 2+ years of experience as a Software Engineer or similar role.
- Proficiency in MVC architecture.
- Experience with Elasticsearch and integrating it into web applications.
- Familiarity with the CodeIgniter framework.
- Strong understanding of web development technologies such as HTML, CSS, JavaScript and AJAX.
- Experience working with databases like MySQL or PostgreSQL.
- Knowledge of version control systems like Git.
- Excellent problem-solving and analytical skills.
- Ability to work independently and in a team environment.

If you meet the above qualifications we encourage you to apply. Please send your resume and any relevant work samples to
