

OPPORTUNITY FOR CREATIVE DESIGNERS WITH MANUFACTURING CAPABILITIES

SriLankan Airlines Limited is seeking dynamic designers with manufacturing capabilities to work with the Airline's Environmental Sustainability unit on their waste upcycling project, "Mathaka". The project plans to give a new lease of life to discarded metals, plastics, and fabric items from its engineering, inflight, and associated operations. Mathaka project has won an international award under socio-economic category at Sheikh Mohammed bin Rashid Al Maktoum Global Aviation Awards 2022. Mathaka strives to empower underprivileged communities and women, while diverting a portion of the airline's waste from landfills into making useful products.

Applications are invited from prospective candidates/organizations to register as suppliers with the Airline's Environmental Sustainability unit as designers with manufacturing capability for the period April 2024 - March 2026.

The candidates/organizations should possess the following qualifications:

- Involvement of underprivileged communities/women in the manufacturing process.
- The capacity and competency to design upcycled products to international standards, trends, and quality.
- Manage the production process to ensure timely delivery and high-quality output on par with international standards, and with minimum impact to the environment.
- An academic qualification in product designing from a reputed institute with knowledge in manufacturing upcycled products.

Note- Upcycling is also known as the creative reuse or the process of transforming by-products, waste materials, unwanted products, etc into new materials or products perceived to be of greater quality, such as artistic, commercial or environmental value.

Should you wish to be a part of this exciting journey with the National Carrier, please visit Tender and GSA notices page of our corporate website via below link and obtain the supplier registration document and follow instructions provided with it.

https://www.srilankan.com/en_uk/corporate/tender-notice

All completed applications and supporting documents should be sent to the email address given in the supplier registration document on or before 11th March 2024.

All shortlisted candidates are required to demonstrate their environmental friendly design and manufacturing capabilities at request based on a brief provided by the airline. Final decision on selection remains with the airline.

Only applicable for local candidates.
